FOR IMMEDIATE RELEASE

March 21, 2022

SHELDON UPDATES MASKING POLICY TO RECOMMENDED, NOT REQUIRED

ST. LOUIS, MO – Beginning Tuesday, March 22, 2022, The Sheldon will no longer require masks for concert-goers, event attendees and gallery patrons. The Sheldon will still require guests aged 12 or older attending ticketed events (does not apply to gallery visitors) to show proof of full vaccination* against COVID-19, or a negative test taken with 48 hours of their event. For the health and safety of patrons, volunteers, staff and artists, The Sheldon recommends masking at all times, unless eating or drinking, especially for those who are unvaccinated.

Masking and vaccination policies are subject to change at the request of the performer or event organizer, and guests are encouraged to check The Sheldon's website for the most updated information. Ticket holders will also be contacted directly if the policy for their event differs from general Sheldon policies.

The Sheldon will continue to carefully monitor COVID safety recommendations and policies from the Centers for Disease Control, and our fellow arts organizations in the Grand Center District, and will not hesitate to change this policy should conditions change.

All public facing staff, including ushers, bartenders, security personnel and box office staff will remain masked, and are required to be fully vaccinated.

For more information, contact The Sheldon at 314-533-9900 or visit <https://www.thesheldon.org/covid-updates/>.

#

** The Sheldon recognizes all vaccines approved through the CDC or WHO (emergency use authorization) guidelines, including Pfizer, Moderna, Johnson & Johnson, Astra Zeneca and Sinopharm. Full vaccination is complete 14 days after your final dose of vaccine.*
