“The Jazz Story” at the Sheldon Concert Hall
Handbook for Teachers

WELCOME
We look forward to welcoming you and your students for the presentation of “The Jazz Story” at the Sheldon Concert Hall. We hope that the perfect acoustics and intimacy of the hall will make this an important and memorable experience.

ARRIVAL AND PARKING
We urge you to arrive at the Sheldon Concert Hall half an hour before the start of “The Jazz Story.” This will allow you to be seated in time for the performance and will allow a little extra time in case you encounter traffic on the way. Seating will be on a first come-first served basis as schools arrive. To accommodate school schedules, we will start “The Jazz Story” promptly at show time.

The Sheldon is located at 3648 Washington Boulevard, just around the corner from the Fox Theatre. A map is enclosed. Parking for school buses will be available on Washington near The Sheldon.

CONCERT MANNERS
Please coach your students on good concert manners before coming to the Sheldon Concert Hall. Good audiences love to listen to music and they love to show their appreciation with applause. Urge your students to take in and enjoy the great music being performed. Also, a “cool” jazz audience member knows that at a jazz concert you can and should applaud after a good solo by one of the musicians.

Food and drink are prohibited in The Sheldon Concert Hall.

Any device (telephone, alarm watch or toy) that makes noise is a distraction for both the musicians on stage and your fellow audience members and should not be brought into the hall.
DEFINITIONS
There are key words that help to understand jazz. Here are definitions of the most important concepts.

Ragtime
A blend of African-American and European music, know for syncopated rhythm. Ragtime became very popular piano music about 100-years ago and was the music that came right before jazz. Scott Joplin, who lived for awhile right here in St. Louis, was known as the “King of Ragtime” and was one of the most popular composers and performers of ragtime.

Syncopation
Accents on what would normally be weak beats (beats two and four are weak beats in four/four time). Ragtime and jazz make extensive use of syncopated rhythm.

Improvisation
The art of changing and expanding upon a melody or chord progression to express the musical ideas of the soloist. A jazz player “taking a solo” is improvising on the tune.

Blue Notes
Lowered third, fifth and seventh notes in a scale are the “blue notes” used by blues singers and later by jazz singers and instrumentalists to give a special blues feeling to a song.

Swing
A type of rhythm that became popular in the 1930’s and 1940’s. Eighth notes are not played evenly but “swung” in a rhythm closer to a triplet feel. During the “swing era” from 1935 to 1945, swing music was popularized by the big bands.

Scat Singing
Singing nonsense syllables instead of words. Made popular by Louis Armstrong, Ella Fitzgerald and many other jazz singers.

Big Bands
The popular bands of the 1930’s and 1940’s (and beyond) that played swing music, featuring sections of trumpets, saxophones, trombones and a rhythm section of piano, bass and drums. Big bands played for dances and often featured a singer or a vocal group.

Bebop or Bop
A type of jazz not for dancing, usually for a small combo, that took melody and harmony to new levels of complexity and freedom. There are lots and lots of notes on fast solos and great freedom on slower tunes. Partly a reaction to the commercial big bands.
**Trading Fours**
An exchange between two jazz musicians in which first one player and then another player improvise for four measures at a time.

**Riffs**
A short musical phrase that is imitated by another player or section in the jazz ensemble. Riffs can become set and a written-out part of a jazz composition.

**Cool Jazz**
A by-product of bop, “cool jazz” was used to describe an unexcited, quiet, behind-the-beat playing that felt like relaxed swing.

**Fusion**
A combination of jazz and rock and roll. Jazz improvisation is added to a rock and roll rhythmic feel of even eighth notes.

**MUSIC IN “THE JAZZ STORY”**

You may wish to play some of the music from “The Jazz Story” before or after your students come to The Sheldon. Familiarity with a particular composer or style of music is a very important factor in the enjoyment and understanding of that music.
